## SPORT COATING BASE MIXING INSTRUCTIONS

**MIXING DEVICE:** 1 or 1.5 hp  $\frac{3}{4}$ " drill with 5-gallon Mud mixer-type drill with paddle attachment

1. Start with 1-full 5-gallon pail of Surface 1 Sport Coating Base and 1 Color Tint Pack.
2. Add the Color Tint Pack to the 5-gallon pail.
3. Blend with drill and paddle mixer until a consistent mix is achieved and color is completely blended in.
4. Make sure to re-mix right before application to prevent separation & ensure proper suspension of sand.

**Note:** Surface 1 Sport Coating Base is a ready to use product. It has the sand and the water already factory blended. All that is needed, is to add the Color Tint Pack into the pail.

### MATERIALS NEEDED

Sport Coating Base ————— 5-gallon pail (net 4.5 gallons)  
Color Tint Pack ————— 1 – Color Tint Pack
